Enthusiastic Web Developer eager to work with companies to develop user-friendly and responsive websites and web apps using cutting-edge technologies like React, Next, Redux, Node, Express and MongoDB.

WORK EXPERIENCE

Freelance Web Developer

Fiverr

08/2022 - 08/2023

I worked on Fiverr for almost a year. As a Level 2 Seller on Fiverr I completed more than 500 orders with a 5-star rating.

Tasks

- Worked as a tutor and taught full stack web development to students all around the world

PERSONAL PROJECTS

MyDevPa.ge

- MyDevPa.ge allows you to build a portfolio website in minutes. It takes care of everything including, displaying projects, skills, and contact forms. You can use the default domain or can also attach a custom domain. You can also view the analytics and can customize your portfolio with different templates. It has a generous free tier but you can upgrade to the paid plan for advance features.

Simplistic Notes

- Simplistic Notes is an end-to-end encrypted notes app. It is the perfect solution for securely creating, organizing, and sharing your notes. With end-to-end encryption and password protection, your notes are safe and secure. Plus, you can easily organize them into folders and share them with others. It uses subscription model.

RepairRadar

- RepairRadar is an open-source platform that connects mechanics with vehicle owners. Mechanics can register themselves and set up their profiles. Customers can sign in and find nearby mechanics through an interactive map. Customers can contact different mechanics and request appointments. Customers can also leave ratings and reviews once their work is done.
