About

Digital Product Designer with a passion for creating exceptional user experiences. ⚡

For over a decade, I've humbly contributed to user-centered designs, learning and adapting from concept to launch. Balancing form and function, my skills cover user research, prototyping, and usability testing.

With a keen understanding of design principles and user research methodologies, I can design and develop digital products that look great and provide an intuitive and seamless user experience.

Work Experience

2021 — Now	Senior Product Designer at Motorgy
	Kuwait (Remote)
	Leading visual design and user experience at Motorgy, a pioneering digital automotive platform in Kuwait. Utilizing data-driven and user-centered methods, I craft seamless, personalized experiences. My role involves in-depth research, user data analysis, and translating insights into exceptional customer journeys.
2020 — 2021	Senior Product Designer at Freelance
2018 — 2020	Senior Product Designer at Fly365.com
	Egypt
	Fly365 is an Australian travel agency, My responsibility is to guide the process from research to launch. Through user research, ideation, prototyping, and testing, crafted an intuitive platform for a seamless booking experience.
2017 — 2018	Digital Product Design Lead at Media Pan Arab FZE.
	Egypt, Emirates
	Overseeing end-to-end design processes to enhance company products. Championing innovative user experiences through collaboration with cross-functional teams in software engineering, and human interface design.
2014 — 2017	Senior UI/UX Designer at Media Pan Arab FZE.
	Egypt, Emirates
	Worked to create, revamp, and improve variation products from the beginning. Responsible for Creating wireframes, visual design, and interactive prototypes and Implementing user-centered design principles.
2012 — 2014	UI/UX Designer at Freelance
2010 — 2012	Web Designer at Freelance
