SUMMARY

Passionate Software Engineer with 10+ years of experience in developing web applications and backend systems. Skilled at writing clear, concise code that is easy to maintain and troubleshoot. Experienced in working with both small and large teams across multiple projects and companies. Able to work independently of remote locations or in office environments as needed by the company

PROFESSIONAL EXPERIENCE

Solo React Developer   2018 - 2024

Entrepreneur   San Fernando, TT

- Developed reusable software components deployed across multiple projects..
- Mastered Tailwind CSS for streamlined styling and accelerated production timelines.
- Implemented modern authentication, CMS, database, and API fetching techniques for React frameworks.
- Leveraged various UI libraries to enhance user interface design and functionality.
- Created React Native test applications, including clones of popular apps like Uber and chat applications.
- Utilized Capacitor plugins for website-to-mobile app conversion and compared with React Native.
- Built a Beats Solo Headset website to showcase my design and marketing skills for a client I am going to build an Amazon-like application for later on.
- Built a car rentals one page application to apply for the web designer position for Tesla.
- Built a simple user book and reviews application to showcase expertise in Flask backend, authentication and Jinja templating
- Designed and developed responsive websites for clients across diverse industries.
- Successfully integrated Flask, SQL, and Flask-SQLAlchemy backend systems with React frameworks.
- Implemented automated testing for Flask backend functions and APIs using Postman.

Flutter Developer   2020 - 2021

On- One Company Ltd.   San Fernando, TT

- Built a fully functional, responsive, intuitive Math for CXC application for students.
- Turned a structured general outline of an application into reuable , understandable and reprogrammable code.
- Learned and fully mastered the Dart programming Language, including syntax, layout and widget design for mobile and desktop applications.
- Suggested new ways of approaching the design process by enlightening the supervisors about code simplicity and reusability.

STRENGTHS

⭐ **Problem Solving**
There was never a problem I could not solve

⭐ **Team Player**
Able to distinguish the best roles and sub goals suited for the members of the teams I work with.

💎 **Always learning the Latest Technologies**
Never do you see me satisfied with the old way of doing things especially if the modern alternative is easier, simpler and helps achieve the co0mpany goals faster

💎 **Code Efficiency**
Simple, reusable, understandable code is my motto
